

PIPEX TO OFFER AVG INTERNET SECURITY TO UK BIZ CUSTOMERS
World's most downloaded Internet security, AVG, available as free trial

UK, London (April 22nd, 2009) - AVG, the World's most downloaded Internet security, is now available to Pipex Business customers. The software, AVG Internet Security, is available as a one-month trial prior to purchase and defends business users against viruses, spyware, worms, hackers, botnets, poisoned web pages, Trojans, spam, and other cyber threats with a full arsenal of digital weaponry.

Mike Foreman, MD for AVG UK says: "Virus and security threats continue to evolve and Internet criminals are getting savvier by the minute – so future proofing your computer has never been more essential. The deal we have signed with Pipex demonstrates their commitment to keeping its customers safe from online threats."

AVG Internet Security will be sold through the Pipex online shop (powered by Rentsoft) and is available to both new and existing customers, either as a standalone product, or with a five or ten user license. The software is priced from £1.15 per user per month.

Lance Spencer, Product and Marketing Director for Pipex says: "In the current economic climate, keeping your company and personal data secure is more important than ever to ensure your business runs smoothly and profitably. We signed with AVG as they provide the best possible protection for our users – we're delighted to be able to offer them this impressive Internet security software."
